

CAROUSELS

Utilize more space

Improve Operator
Motivation

Secure Storage

Vertical Carousel

- ◆ The highest cubic utilization in the industry
- ◆ Reclaim up to 75% of floor space utilizing otherwise wasted overhead space
- ◆ Eliminating up to 2/3 of an operator's wasted walk and search time
- ◆ Product is stored securely to minimize shrinkage (protected from light and dust)

Horizontal Carousel

- ◆ Increased productivity/Reduced labor requirements
- ◆ Optimized cube/Space utilization
- ◆ Reduced order processing time
- ◆ Increased service levels
- ◆ Improved security/Reduced shrinkage
- ◆ Increased Accuracy

Vertical Lift Module

- ◆ Highest cubic utilization in the industry
- ◆ Reclaim up to 75% of floor space by utilizing overhead space
- ◆ Minimum operator range of motion required, as well as reduced walk and search time
- ◆ Secure storage minimizes shrinkage and protects from light and dust
