Ceiling Mounted Bridge Crane

Work Station Bridge Crane

### Adjustable Steel Gantry Crane

- Provides the most flexible lifting solution of any style jib crane
- The adjustable gantry can be moved to almost any location
- Easily adjusted to provide different lifting heights

### Fixed Height Steel Gantry Cranes

- Provide an economical way to lift materials anywhere in a facility
- Provides stable lifting and movement
- Heavy duty end frame design with square tubing uprights, knee braces and channel base

### Work Station Jib Crane

- Designed to service circular areas
- Supports tool balancers, air balancers, vacuum lifters, and hoists
- When floor mounted, it can accommodate up to a 360° rotation
- Capacities are available from 100 lbs. to 1000 lbs. with spans up to 16 ft.

### I-beam Jib

- Ideal for heavier loads from 1 to 5 tons
- Available in motorized or manual rotation

### Ceiling Mounted Bridge Crane

- Excellent solution to keeping floors clear
- Handling capacities up to 4000 lbs. with overall bridge lengths up to 34 ft
- Easy expansion, and relocation

### Work Station Bridge Crane

- Can handle the toughest overhead lifting tasks
- Can be installed on any normal 6-inch reinforced concrete floor
- Design that can easily expand as your work centers expand
