

## PALLET CONVEYOR

The pallet jack ramp is used for loading and unloading pallets from conveyors with hand pallet jacks. Driven rollers gently convey the pallet into or out of your system.

### Benefits:

- ◆ Easy entry or removal of pallets from system
- ◆ Power rollers, optional non-powered
- ◆ Option to power center rollers
- ◆ Choice of horizontal (pit req'd) or angled entry
- ◆ Pallet jack stops to prevent conveyor damage
- ◆ Pallet guide centers pallet
