

SPIRAL CONVEYORS

Higher throughput capacity

Require less space

Generate less noise

Consume less energy

Cost less to install

Need less maintenance

Longer life compared to conventional methods

Features:

- ◆ High Throughput- The standard load capacity is 75 pounds per linear foot of conveyor for speeds up to 200 feet per minute.
- ◆ One Drive
- ◆ Small Footprint
- ◆ Proprietary Chain Slat Arrangement- facilitates low friction operation
- ◆ Easy to Install
- ◆ Low Maintenance
- ◆ Built-in Protection
- ◆ Several Spiral Conveyor Models
- ◆ Custom Vertical Solutions
